The Baltic 112 sailing yacht, named PATH, boasts exceptional quality and performance as a true cruising vessel. Designed with a circumnavigation purpose in mind, she offers

ample storage and fuel capacity to cater to the needs of her owner and guests, all while maintaining the renowned sailing performance associated with Baltic Yachts. Crafted using carbon composite materials, PATH's construction ensures both strength and lightness, enhancing her overall performance.

With naval architecture by Judel & Vrolijk and an elegant interior designed by R&J Design, this performance cruising yacht is truly remarkable. The interior exudes a classical style, providing a luxurious and comfortable experience for everyone on board. PATH accommodates 6 to 8 guests in three spacious cabins, with the option of converting the lower saloon into a fourth cabin if desired.

In 2021/2022, PATH underwent a comprehensive Winter Refit at STP Palma, resulting in her immaculate condition. The refit included a thorough 10-year RINA class certification survey, ensuring compliance with safety standards. Additionally, the rig was carefully inspected, with all standing rigging sent to Valencia for testing, servicing, and necessary renewals. This meticulous attention to detail guarantees that PATH is in prime sailing condition, ready to embark on new adventures with her fortunate owners.
